

Smart Energy Systems—Optimization Project Group Milestone 2 Rubric

General Criterion	Criterion	Allotted Points	Received Grade					
			100%	80%	60%	40%	20%	0%
Quality of Information	The presentation thoroughly describes the optimal solutions.	1.5						
	The insights obtained from the sensitivity analyses are clearly laid out.	1.0						
Implementation	The L-shaped method is successfully implemented for the solution of the devised problem.	4.0						
	The sensitivity analysis is completely carried out.	1.5						
Presentation	The milestone is presented in a logical sequence, and coherent way.	1.0						
	The presenter(s) demonstrate(s) full knowledge of milestone material.	1.0						
Total		10.0
